

DATA ANALYTICS PROCESS

REAL WORLD APPLICATION

Plan

- To buy laptop for personal use.

Prepare

- How much minimum amount required to buy a laptop?
- And find a job to pay the down payment.

Process

- To check what kind of primary features the laptop offers that are available in the market.
- And I have to decide the feature which I want inbuilt in laptop

Analyse

- Checking out the latest laptops available in the market.
- What operating system are they based on and how user friendly are they.

Share

- Tell seller what are my requirements and find which one I would like to use (MacOs, Windows or Linux).

Act

- Finally buy a laptop
- Use it and have fun
